Design – Johan Lindstén

**JOHANSON**

## Introduction

An invitingly comfortable chair whose different surfaces and angles create a fascinating interplay of shifting shadows.

## Designer

Johan Lindstén's products are characterised by well-thought out design and unexpected details in a creative process that optimises function. Johan wants his designs to interact with their surroundings in a way that influences the mood of the user. He draws his inspiration from the most unlikely of sources, such as the lilac bush outside his home or the Ocean of Storms on the moon.

## Seat - Upholstery materials

Johanson offers a very generous range of fabrics, leather and artificial leather from the most reputable suppliers in the world. Should any other material be desired despite the wide selection, it is also possible to suggest other materials. Johanson does not charge start-up costs for handling non-standard materials.

## Multicolour - Finish RAL

Take part in Johanson's color range, 400 variants of different finishes are offered as standard on steel frames and metal details. Choose from all 192 RAL colors, alternatives are available both as solid finish (gloss 72) or Structure finish which has a matte, slightly textured elegant surface. In addition, 15 RAL colors with pearl finish.

For all colours see [www.johansondesign.com](http://www.johansondesign.com)

**192 Solid collection** (gloss 72)

**192 Structure collection** (matte, textured surface)

**15 Pearl finish collection**

# Facts

---

## Material

The seat is made in moulded CMHR foam (density 65kg) that meets the highest requirements for flammability (CMHR quality). The base is made of finished/lacquered metal.

## Certificate-Moment

- Fire certificate (Danak)

## Recycling

All steel parts are recyclable.

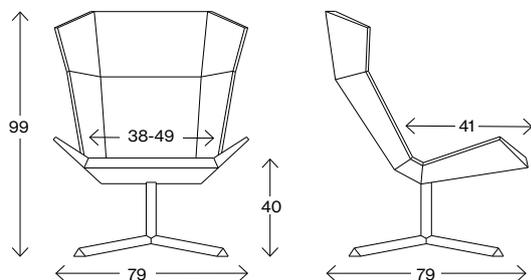

Before we finish the chrome/lacquer all grease/oil is removed by alkaline wash and then sent for destruction. The lacquering is produced by electrostatic epoxy powder coating that gives a minimum of waste. The electrostatic chrome (chrome 3) is recyclable. The plastic parts that are used are recyclable by grinding. All upholstery and frames of synthetic material are totally without C.F.C. emissions. All glue is water based.

## Material declaration
