

# Dice

Design – Böttcher & Kayser

**JOHANSON**

## Introduction

New ideas from the acclaimed Berlin-based designer duo Böttcher & Kayser have become something of a recurring theme in the Johanson Design range. This spring's additions include the ingenious, multifunctional DICE.

DICE is a hybrid concept that combines two essential furnishing functions – stool and table – in a single, practical, light-hearted piece of furniture. The cube shape with its rounded corners gives this product a relaxed, laid-back character that makes it easy to take full advantage of its multifunctional flexibility. With one padded side and a flat surface of weight-saving

perforated metal, DICE is both a stool and a table. All you need to do to alternate between the two different functions is simply to roll DICE over – time and time again to serve the desired function. Can there be a more ingeniously versatile and practical solution?

“We envisage DICE will be used in large or small constellations – as stools with their respective tables – in the education sector, in libraries and schools, cafés and public lounges, but also in areas for mingling in large office premises. DICE is always ready to serve users in just the way they choose,” say Böttcher & Kayser.

## Designer

Böttcher & Kayser is a Berlin-based studio founded in 2007, working in the fields of consumer product, furniture, lighting and interior design. Moritz Böttcher and Nikolaus Kayser have been rewarded with several prestigious awards such as the Interior Innovation Award, several iF Design Awards and numerous Red Dot Awards – including the award, Best of the Best' in 2013. Their projects have been published in books and magazines around the world.

## Seat - Upholstery materials

Johanson offers a very generous range of fabrics, leather and artificial leather from the most reputable suppliers in the world. Should any other material be desired despite the wide selection, it is also possible to suggest other materials. Johanson does not charge start-up costs for handling non-standard materials.

## Multicolour - Finish RAL

Take part in Johanson's color range, 399 variants of different finishes are offered as standard on steel frames and metal details. Choose from all 192 RAL colors, alternatives are available both as solid finish (gloss 72) or Structure finish which has a matte, slightly textured elegant surface. In addition, 15 RAL colors with pearl finish are offered.

For all colours see [www.johansondesign.com](http://www.johansondesign.com)

### Recycling

All steel parts are recyclable. Before we finish the chrome/lacquer all grease/oil is removed by alkaline wash and then sent for destruction. The lacquering is produced by electrostatic epoxy powder coating that gives a minimum of waste. The electrostatic chrome (chrome 3) is recyclable. The plastic parts that are used are recyclable by grinding. All upholstery and frames of synthetic material are totally without C.F.C. emissions. All glue is water based.

### Material declaration
