

# Shima, Shima Garden & Eden

Design – Böttcher & Kayser

**JOHANSON**

## Introduction

**Shima**, a hybrid piece of furniture with a stylish and ergonomical design offering comfortable sitting and resting positions for both work and relaxation. Thanks to its attractive design, Shima will suit every occasion, from short coffee breaks to a few hours work in a relaxing atmosphere.

The new **Shima Garden** is a receptacle for flowers or green plants that comes in a range of sizes. This new addition to the Shima series opens up even more opportunities to work creatively to enhance interior environments.

**Eden** is a receptacle for flowers or green plants that comes in four sizes, with wheels. Eden meets the need to create settings that can be easily adapted, partly because of the product itself, but partly also thanks to the huge freedom of choice that Johanson's production methods offer with regard to the colour of the frame.

## Designer

Böttcher & Kayser is a Berlin-based studio founded in 2007, working in the fields of consumer product, furniture, lighting and interior design. Moritz Böttcher and Nikolaus Kayser have been rewarded with several prestigious awards such as the Interior Innovation Award, several iF Design Awards and numerous Red Dot Awards – including the award, 'Best of the Best' in 2013. Their projects have been published in books and magazines around the world.

# Material

---

## Seat - Upholstery materials

Johanson offers a very generous range of fabrics, leather and artificial leather from the most reputable suppliers in the world. Should any other material be desired despite the wide selection, it is also possible to suggest other materials. Johanson does not charge start-up costs for handling non-standard materials.

## Multicolour - Finish RAL

Take part in Johanson's color range, 400 variants of different finishes are offered as standard on steel frames and metal details. Choose from all 192 RAL colors, alternatives are available both as solid finish (gloss 72) or Structure finish which has a matte, slightly textured elegant surface. In addition, 15 RAL colors with pearl finish and chrome are offered.

For all colours see [www.johansondesign.com](http://www.johansondesign.com)

192 Solid collection (gloss 72)

192 Structure collection (matte, textured surface)

15 Pearl finish collection and chrome.

### Recycling

All steel parts are recyclable.

Before we finish the chrome/lacquer all grease/oil is removed by alkaline wash and then sent for destruction. The lacquering is produced by electrostatic epoxy powder coating that gives a minimum of waste. The electrostatic chrome (chrome 3) is recyclable. The plastic parts that are used are recyclable by grinding. All upholstery and frames of synthetic material are totally without C.F.C. emissions. All glue is water based.

### Material declaration

For more information about the product please download material declaration on our website, under Downloads à Product Information at [www.johansondesign.com](http://www.johansondesign.com)
