

Friends

Design – Alexander Lervik

JOHANSON

Introduction

A modular sofa system with good seating comfort and a graphically strong profile, inspired by the shape of an aircraft wing, that gives the design its own distinctive identity. Friends provides plenty of inspiration for creative solutions.

Designer

Alexander Lervik is one of Sweden's most well-known designers, collaborating with a number of national and international producers, including Moroso, Zero, Designhouse Stockholm and Johanson.

Though his main focus is lighting, furniture and product design, he also creates concepts for hotel and restaurant interiors and collaborates with fashion brands.

Material

Seat - Upholstery materials

Johanson offers a very generous range of fabrics, leather and artificial leather from the most reputable suppliers in the world. Should any other material be desired despite the wide selection, it is also possible to suggest other materials. Johanson does not charge start-up costs for handling non-standard materials.

Multicolour - Finish RAL

Take part in Johanson's color range, 400 variants of different finishes are offered as standard on steel frames and metal details. Choose from all 192 RAL colors, alternatives are available both as solid finish (gloss 72) or Structure finish which has a matte, slightly textured elegant surface. In addition, 15 RAL colors with pearl finish and chrome are offered.

For all colours see www.johansondesign.com

192 Solid collection (gloss 72)

192 Structure collection (matte, textured surface)

15 Pearl finish collection and chrome.

 pCon
The image shows the pCon logo, which consists of the text 'pCon' in a bold, sans-serif font, with 'PLANNING' written in a smaller font below it.

Recycling

All steel parts are recyclable.

Before we finish the chrome/lacquer all grease/oil is removed by alkaline wash and then sent for destruction. The lacquering is produced by electrostatic epoxy powder coating that gives a minimum of waste. The electrostatic chrome (chrome 3) is recyclable. The plastic parts that are used are recyclable by grinding. All upholstery and frames of synthetic material are totally without C.F.C. emissions. All glue is water based.

Material declaration

For more information about the product please download material declaration on our website, under Downloads à Product Information at www.johansondesign.com
