

# Ester

Design – Alexander Lervik

**JOHANSON**

## Introduction

Ester is based on a chair that was part of the range during the 1970s. "I found an old armchair from the 1970s in Johanson's warehouse that was so wonderfully comfortable to sit in that we decided to update the design while retaining the dimensions," says Alexander Lervik. The result was Ester, a slender conference chair that is very comfortable.

## Designer

Alexander Lervik is one of Sweden's most well-known designers, collaborating with a number of national and international producers, including Moroso, Zero, Designhouse Stockholm and Johanson. Though his main focus is lighting, furniture and product design, he also creates concepts for hotel and restaurant interiors and collaborates with fashion brands.

## Seat - Upholstery materials

Johanson offers a very generous range of fabrics, leather and artificial leather from the most reputable suppliers in the world. Should any other material be desired despite the wide selection, it is also possible to suggest other materials. Johanson does not charge start-up costs for handling non-standard materials.

## Multicolour - Finish RAL

Take part in Johanson's color range, 405 variants of different finishes are offered as standard on steel frames and metal details. Choose from all 195 RAL colors, alternatives are available both as solid finish (gloss 72) or Structure finish which has a matte, slightly textured elegant surface. In addition, 15 RAL colors with pearl finish and polished aluminum are offered.

For all colours see [www.johansondesign.com](http://www.johansondesign.com)

## Recycling

All steel parts are recyclable.

Before we finish the chrome/lacquer all grease/oil is removed by alkaline wash and then sent for destruction. The lacquering is produced by electrostatic epoxy powder coating that gives a minimum of waste. The electrostatic chrome (chrome 3) is recyclable. The plastic parts that are used are recyclable by grinding. All upholstery and frames of synthetic material are totally without C.F.C. emissions. All glue is water based.

## Material declaration

For more information about the product please download material declaration on our website, under Downloads à Product Information at [www.johansondesign.com](http://www.johansondesign.com)
