DECO

DECO

teklan 2025

Inspirerade av årets stora möbelnyheter från Johanson, Garbo och Grace, signerade av Alexander Lervik, ser vi hur allt anspelar på 20-talets Art Deco, där geometriska element skapar formstarka symmetriska mönster. En modern tolkning. Kontrastrika färger möter elegans. Ljudabsorbenter från Decibel by Johanson utgör tydliga pelare både konceptuellt och i konstruktionen. Vi ser tydliga referenser till Streamline Moderne med sina tidstypiska nautiska fönsterhål, horisontella stilistiska linjer som med tillsammans ger en grafisk estetik.

I centrum, själva hjärtat av Johanson, visas historien av möbler, Classic Collection. Baren tar plats med dekorativt blockrandigt kakel från Teklas egna serie, färgblock x Quintessenza.

Utifrån ett tydligt signum för Teklan, leds besökaren runt likt en labyrint för ständigt nya upplevelser. Beträktandet av flertalet vyer och perspektiv blir likt ett grepp – hyde and seek.

Färgpaletten består av oväntade kontraster, där svart och creme utgör den stilistiskt vackra inramningen. Färgrika fonder i biljardgrönt, peach-orange och lysande gulgrönt utgör palettens huvudfärger som alla skapar olika scener.

RAL 040 40 40 Brick Red är en ny kulör som Tekla plockat ut för Johanson.

En brunorange ton som har en viss nostalgisk touch. Väggfärgen i gallerigången har översatts till passande färgrymd och flertalet produkter visas i sin fulla och rätta nyans.

Inspired by this year's major furniture innovations from Johanson – Garbo and Grace, designed by Alexander Lervik – we see a clear homage to the 1920s Art Deco era, where geometric elements create bold, symmetrical patterns. A modern interpretation. Contrasting colors meet elegance. Sound absorbers from Decibel by Johanson serve as distinct pillars both conceptually and structurally. We observe clear references to Streamline Moderne, with its characteristic nautical porthole windows and horizontal stylistic lines, combining to deliver a graphic aesthetic.

At the heart of Johanson is the story of furniture, the Classic Collection. The bar is showcased with decorative striped tiles from Teklan's own series, Color Blocks x Quintessenza.

With Teklan's distinctive signature, visitors are guided through a labyrinth of continuous new experiences. The interplay of multiple views and perspectives becomes an engaging "hide-and-seek" encounter.

The color palette features unexpected contrasts, with black and cream forming a stylish and beautiful frame. Vivid background colors – billiard green, peach orange, and bright yellow-green – constitute the primary palette, each setting unique scenes.

RAL 040 40 40 Brick Red is a new shade that Teklan has selected for Johanson.

A brown-orange tone with a nostalgic touch. The wall color in the gallery hallway has been translated into a harmonious color spectrum, with several products displayed in their full and authentic hues.

Tack

Vi på Johanson vill rikta ett stort tack till våra samarbetspartners som alla har bidragit till hållbara och spännande val av klädselmateriäl, golv, bordsskivor och vackert kakel i vår bar. Skickliga monterbyggare har skapat vår monter i samråd med Teklan.

Thanks

At Johanson, we would like to extend our heartfelt thanks to our partners, all of whom have contributed to the sustainable and inspiring selection of upholstery materials, flooring, tabletops, and the beautiful tiles in our bar. Skilled stand builders have brought our exhibit to life in close collaboration with Teklan.
