Babylon, Eden & Shima Garden

Design – Böttcher & Kayser

JOHANSON

Introduction

Babylon offers straightforward yet flexible solutions for placing plants in rooms of all types, without wasting valuable space. It works equally well as a single, individual unit or grouped together in cheerful combinations – as a functional room divider or a purely decorative accent," say Böttcher & Kayser.

Eden includes both round and square planters with wheels. Eden meets the need to create settings that can be easily adapted, partly because of the product itself, but partly also thanks to the huge freedom of choice that Johanson's production methods offer with regard to the colour of the frame.

The new **Shima Garden** is a receptacle for flowers or green plants that comes in a range of sizes. This new addition to the Shima series opens up even more opportunities to work creatively to enhance interior environments.

Designer

Böttcher & Kayser is a Berlin-based studio founded in 2007, working in the fields of consumer product, furniture, lighting and interior design. Moritz Böttcher and Nikolaus Kayser have been rewarded with several prestigious awards such as the Interior Innovation Award, several iF Design Awards and numerous Red Dot Awards – including the award, Best of the Best' in 2013. Their projects have been published in books and magazines around the world.

Recycling

All steel parts are recyclable.
Before we finish the chrome/lacquer all grease/oil is removed by alkaline wash and then sent for destruction. The lacquering is produced by electrostatic epoxy powder coating that gives a minium of waste. The electrostatic chrome (chrome 3) is recyclable. The plastic parts that are used are recyclable by grinding. All upholstery and frames of synthetic material are totally without C.F.C. emissions. All glue is water based.
