

U-sit

Design – Alexander Lervik

JOHANSON

Introduction

An inviting sofa that allows people to recline in comfort, while others perch on the back of the sofa from the other side, without clashing. A modular system offering innumerable combinations.

Designer

Alexander Lervik is one of Sweden's most well-known designers, collaborating with a number of national and international producers, including Moroso, Zero, Designhouse Stockholm and Johanson. Though his main focus is lighting, furniture and product design, he also creates concepts for hotel and restaurant interiors and collaborates with fashion brands.

Material

Seat - Upholstery materials

Johanson offers a very generous range of fabrics, leather and artificial leather from the most reputable suppliers in the world. Should any other material be desired despite the wide selection, it is also possible to suggest other materials. Johanson does not charge start-up costs for handling non-standard materials.

Multicolour - Finish RAL

Take part in Johanson's color range, 405 variants of different finishes are offered as standard on steel frames and metal details. Choose from all 195 RAL colors, alternatives are available both as solid finish (gloss 72) or Structure finish which has a matte, slightly textured elegant surface. In addition, 15 RAL colors with pearl finish and chrome are offered.

For all colours see www.johansondesign.com

195 Solid collection (gloss 72)

195 Structure collection (matte, textured surface)

15 Pearl finish collection and chrome.

Socketbeslag

U-4, U-41

Socle fitting for smooth and stylish assembly of straight lengths and corners. Black / alu finish.

Facts

Material

The seat is made of FSC certified wood and padding is made of polyether/foam. The base is made of finished/lacquered metal.

Fire classification

All products meet Möbelfakta's fire requirements. All polyether/foam are tested to Cal TB 117. All standard fabrics meet EN 1021:1 & 2. Other classification, for example BS 5856 (Crib 5) on request, please contact customer support.

Recycling

All steel parts are recyclable. Before we finish the chrome/lacquer all grease/oil is removed by alkaline wash and then sent for destruction. The lacquering is produced by electrostatic epoxy powder coating that gives a minimum of waste. The electrostatic chrome (chrome 3) is recyclable. The plastic parts that are used are recyclable by grinding. All upholstery and frames of synthetic material are totally without C.F.C. emissions. All glue is water based.

U-Drop

U-drop is a further development of U-sit with a gap between back and seat. Dimensions and prices are the same as the U-sit 70 modules.

The following modules are available as U-drop:

- U-Drop 71
- U-Drop 72
- U-Drop 72 Corner Back Right/Left
- U-Drop 72 Double Corner Back
- U-Drop 73
- U-Drop 73 Corner Back Right/Left
- U-Drop 73 Double Corner Back
- U-Drop 74
- U-Drop 75
- U-Drop 76

Dimensions of run: 2 cm
U-1 or U-11 legs.

U-sit Screen

To be combined with U-sit all modules with back, with exception of U-75/76, U-85/86.

Height 125cm excl legs.

Total height with U-1/2/3=140cm

Total height with U-11/21/31=144cm

Screenback U-71-74,
U-81-84

Screenback U-72/82, 73/83
Corner back left

Screenback U-72/82, 73/83
Corner back right

Screenback U-72/82, 73/83
Double Corner back
