Stroll

Design – Böttcher & Kayser

JOHANSON

Introduction

Stroll builds on the concept of creating flexible settings and situations. Initially launched in 2020, the series has now been extended with more work tables, a serving trolley and side tables. All exhibit the playful expression that is typical of Stroll design and demonstrate the versatility, flexibility and stackability that are the hallmarks of this series.

Stroll-desks are available in different sizes and can easily be moved on wheels. When the desk is in use, the castors can easily be locked. The stackable design is a huge space-saving advantage when storing several desks – a useful solution for quickly adapting office furnishings to meet constantly shifting demands

in today's work environments. A meeting today, a workshop tomorrow, a conference later on.

Stroll-Butler is a flexible 'helping hand'. Working materials for the office, tools in the workshop, refreshments for the conference, or books and magazines in the reception. Stroll is your mobile 'personal assistant' in modern, flexible settings.

Stroll-side tables are available in 3 heights with 2 different sizes, available with or without castors. These side tables provide yet another example of the mobility and flexibility of this series – the ideal companion beside a sofa, in the work room or as a useful extra surface in the kitchen.

Stroll is a series that encourages spontaneous meetings and – thanks to the ease with which the stools can be moved – flexible furnishing solutions.

Designer

Böttcher & Kayser is a Berlin-based studio founded in 2007, working in the fields of consumer product, furniture, lighting and interior design. Moritz Böttcher and Nikolaus Kayser have been rewarded with several prestigious awards such as the Interior Innovation Award, several iF Design Awards and numerous Red Dot Awards – including the award, Best of the Best' in 2013. Their projects have been published in books and magazines around the world.

Accessories

Wheels

Wheels black, white and chrome.

Wheels-Stroll Desk

Lockable wheels are available in black and white.

Material

Seat - Upholstery materials

Johanson offers a very generous range of fabrics, leather and artificial leather from the most reputable suppliers in the world. Should any other material be desired despite the wide selection, it is also possible to suggest other materials. Johanson does not charge start-up costs for handling non-standard materials.

Multicolour - Finish RAL

Take part in Johanson's color range, 405 variants of different finishes are offered as standard on steel frames and metal details. Choose from all 195 RAL colors, alternatives are available both as solid finish (gloss 72) or Structure finish which has a matte, slightly textured elegant surface. In addition, 15 RAL colors with pearl finish and chrome are offered.

Stroll Butler are only available with RAL in Structure finish.

For all colours see www.johansondesign.com

Facts

Stroll Family in detail

Material

Fully upholstered stool/barstool with moulded seat frame in polyether.
The base is made of finished/lacquered metal.

Fire classification

All products meet Möbelfakta's fire requirements. All polyether/foam are tested to Cal TB 117. All standard fabrics meet EN 1021:1 & 2. Other classification, for example BS 5856 (Crib 5) on request, please contact customer support.

Recycling

All steel parts are recyclable. Before we finish the chrome/lacquer all grease/oil is removed by alkaline wash and then sent for destruction. The lacquering is produced by electrostatic epoxy powder coating that gives a minimum of waste. The electrostatic chrome (chrome 3) is recyclable. The plastic parts that are used are recyclable by grinding. All upholstery and frames of synthetic material are totally without C.F.C. emissions. All glue is water based.
