

Duke

Design – Alexander Lervik

JOHANSON

Introduction

Dandy has always had a strong form, but certain details made the model unnecessarily complicated. The exposed corners were an advanced production solution that both drove costs and made future reupholstery more difficult.

By simplifying the construction, the model becomes more rational to manufacture and more sustainable in a longer perspective. The expression becomes cleaner, calmer, and more timeless, while the chair more

easily can be given new life with new upholstery. The update makes the model more relevant today without losing its character.

The updated Dandy is launched as Duke.

Designer

Alexander Lervik is one of Sweden's most well-known designers, collaborating with a number of national and international producers, including Moroso, Zero, Designhouse Stockholm and Johanson.

Though his main focus is lighting, furniture and product design, he also creates concepts for hotel and restaurant interiors and collaborates with fashion brands.

Model

Duke 09-46

Material

Seat - Upholstery materials

Johanson offers a very generous range of fabrics, leather and artificial leather from the most reputable suppliers in the world. Should any other material be desired despite the wide selection, it is also possible to suggest other materials. Johanson does not charge start-up costs for handling non-standard materials.

Multicolour - Finish RAL

Take part in Johanson's color range, 405 variants of different finishes are offered as standard on steel frames and metal details. Choose from all 195 RAL colors, alternatives are available both as solid finish (gloss 72) or Structure finish which has a matte, slightly textured elegant surface. In addition, 15 RAL colors with pearl finish and chrome are offered.

For all colours see www.johansondesign.com

195 Solid collection (gloss 72)

195 Structure collection (matte, textured surface)

15 Pearl finish collection and chrome.

Connector

09-stativ

Extra

Felt gliders
Stacking protector (standard)

Stacking trolley

Stackability for each chair can be found under facts.

Facts

Material

FSC certified wood.
Padding is made of polyether/foam.
Finished/lacquered metal.

Fire classification

All products meet Möbelfakta's fire requirements. All polyether/foam are tested to Cal TB 117. All standard fabrics meet EN 1021:1 & 2. Other classification, for example BS 5856 (Crib 5) on request, please contact customer support.

Certificate

Opus-high/low-03

Recycling

All steel parts are recyclable. Before we finish the chrome/lacquer all grease/oil is removed by alkaline wash and then sent for destruction. The lacquering is produced by electrostatic epoxy powder coating that gives a minimum of waste. The electrostatic chrome (chrome 3) is recyclable. The plastic parts that are used are recyclable by grinding. All upholstery and frames of synthetic material are totally without C.F.C. emissions. All glue is water based.
